

Julie-Lyn Noël MD MBA Bio

Julie-Lyn Noel is the Director of Education and Research of the EUROSPINE, the Spine Society of Europe running the education and research programmes. She truly believes in the EUROSPINE education programme's aim of transcending borders and languages. Julie-Lyn ensures that this aim can be achieved through the delivery of courses in various formats (including case-based discussions, cadaver lab workshops, simulators and dry lab workshops), collaborations with national societies to harmonise education standards, delivery of accreditation of fellowship training of spine centres, collaboration with numerous industry partners to educate on their latest technologies, and allowing young spine specialists to have a short-term observership with other spine experts. Julie-Lyn drives EUROSPINE research fostering a community where spine researchers are supported with the availability of a grant system, highly interactive and intensive research courses and networking activities and opportunities.

Julie-Lyn has spent a decade in medical education and has an extensive experience working in a non-profit environment. She has successfully developed, coordinated and monitored educational projects in the European Respiratory Society (ERS). Her work has been international in scope-specifically the HERMES (Harmonised Education in Respiratory Medicine for European Specialists) initiative. She drove the direction towards professionalised medical education within the ERS to incorporate educational offerings, assessment programmes, learning technologies, CPD programmes and medical education research into the overall strategy of the ERS Education Council. She has worked closely with universities, institutions and service providers in the development of educational programmes and managed negotiations with European bodies, professional organisations and societies to develop common training frameworks and compliance for national CME requirements.

Julie-Lyn is a licensed physician graduating from the University of the Philippines and is a holder of an Executive MBA in Management of Technology of the École Polytechnique Fédérale de Lausanne and Faculty of Business and Economics (HEC) of the University of Lausanne.
